GLASSLINE | UK

AESTHETICS AND FUNCTIONALITY

It's been more than 15 years since Unidrain launched its groundbreaking floor drain which changed the standards of modern bathrooms, and ever since, more products has been added.

Unidrain GlassLine is a glass wall solution with an integrated floor drain and built-in slope, securing an easy installation and water tight solution. Only a discreet steel frame is visible along the wall and floor, showcasing the elegant lines and providing a timeless look.

For HighLine

GlassLine shower screen | with black frame

GlassLine shower screen and door | transparent
HighLine floor drain | custom
Reframe collection soap shelf and shower wiper,
toilet brush, pedal bin and toilet paper holder | copper

GlassLine Shower door, top rail | steel
HighLine floor drain | Panel with frame

SHOWER DOOR AND TOP RAIL

To complete the dream of a modern and unique shower cubicle, Unidrain offers a shower door. The elegantly glass shower door is mounted with exclusive and stylish fittings, with no external handles. Choose from 2 screen designs.

A top rail is recommended for stabilising shower screens measuring 1200 mm or more. The GlassLine shower door must be combined with a top rail. The top rail is available in one length, and is adjustable to the individual shower cubicle.

CLASSICLINE

THE ORIGINAL DESIGN RANGE

ClassicLine consists of frame and grating. A choice of 4 elegant and timeless grating designs in brushed stainless steel ensures a product to suit all tastes.

STRONG AND SECURE INSTALLATION

The shower screen is installed in the track of the ShowerLine drain to eliminate risk of loosening over time. ShowerLine is fitted to the wall and embedded firmly into the floor. When the floor is poured, a 2 % slope is defined in the shower cubicle to make the pouring process easier than ever before. Wall and floor flanges ensure a 100 % waterproof solution. Unidrain's patented flange system is extended to the installation of the shower screen, making GlassLine the strongest and most wetroom secure installation ever for shower cubicles.
